

# SAIYAM BHURARIA

Software Engineer | Java & Spring Boot Backend Developer

Rewari, Haryana, India | [saiyambhuraria45@gmail.com](mailto:saiyambhuraria45@gmail.com) | +91-7015-290-700

[linkedin.com/in/saiyambhuraria](https://linkedin.com/in/saiyambhuraria) | [github.com/saiyam2812](https://github.com/saiyam2812)

## PROFESSIONAL SUMMARY

Backend Software Engineer with 1+ year of experience designing, developing, and deploying secure, scalable RESTful APIs using Java, Spring Boot, Spring Security, and Hibernate/JPA. Proven track record of delivering production-grade backend systems with JWT authentication, relational database optimization, and automated workflow solutions that reduced manual errors by 90%. Skilled in layered architecture, SOLID principles, Agile/Scrum collaboration, and writing clean, testable, maintainable code.

## TECHNICAL SKILLS

- **Languages:** Java, SQL, JavaScript
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Reactjs
- **API & Authentication:** REST APIs, RESTful Web Services, JWT Authentication, JSON, Postman, API Integration
- **Databases:** MySQL, PostgreSQL
- **Architecture & Design:** MVC, OOP, SOLID Principles
- **Testing:** JUnit, Mockito, API Testing, Apache Jmeter, REST Assured
- **Tools & DevOps:** Git, GitHub, Maven, IntelliJ IDEA, Linux, CI/CD Pipelines
- **Methodologies:** Agile, SDLC, Code Reviews, Performance Tuning, Data Structures & Algorithms

## PROFESSIONAL EXPERIENCE

### Software Engineer

Sept 2025 – Present

*AWC Software Pvt Ltd, Noida, India*

- Developed an Invoice Processing Automation System using Java and Spring Boot, reducing manual processing errors by 90%. and invoice turnaround time by ~40%.
- Developed and maintained 15+ RESTful APIs for secure communication between internal and third-party systems.
- Built reusable workflow utilities and event-driven agents to automate repetitive business processes across finance workflows.
- Contribute to the CEMILAC DA-ISO application, implementing backend business logic, API integrations, and JWT-based authentication.
- Implemented centralized exception handling, Bean Validation, and layered architecture to improve application reliability and maintainability.
- Optimized SQL queries and JPA/Hibernate mappings, reducing database query execution time by ~35%.
- Collaborated with developers and QA teams in Agile/Scrum sprints, participating in code reviews and bug fixing.

### Quality Assurance Intern

Mar 2025 – Aug 2025

*Qapitol QA, Gurugram, India*

- Designed and executed 100+ functional and API test cases covering critical transaction workflows, improving defect detection rate during sprint QA cycles.
- Validated REST APIs using Postman and built test automation scripts with REST Assured, reducing regression effort by ~30%.
- Participated in Agile/Scrum sprint cycles through defect triage, root cause analysis, and close collaboration with development teams.

## PROJECTS

### Student Management System – RESTful Backend API

[github.com/saiyam2812/student-management-api](https://github.com/saiyam2812/student-management-api)

*Java, Spring Boot, Spring Security, JWT, Hibernate/JPA, MySQL, Maven, JUnit*

- Built a production-grade Spring Boot backend managing students, courses, and enrollments using layered architecture (Controller–Service–Repository) with DTO mapping.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC) with Spring Security, securing 20+ REST endpoints from unauthorized access.
- Developed centralized global exception handling (`@ControllerAdvice`) with Jakarta Bean Validation, ensuring consistent and descriptive JSON error responses.
- Modeled a normalized relational schema with optimized indexes and JPA entity relationships, improving data retrieval performance by ~40%.
- Added server-side pagination, sorting, and filtering; wrote unit and integration tests using JUnit and Mockito to ensure reliability and prevent regressions.

## EDUCATION

### B.Tech in Computer Science and Engineering

Sept 2021 – Jun 2025

*Global Institute of Technology and Management, Gurugram*

CGPA: 7.6/10
